Shaper's Comments: This is my longer version of the previous 6'2"C fish blank. I designed this one as to be able to easily net a 6'5" by the bottom measurement. Bottom rocker is a shorter version of the natural rocker of the 6'9"A I made in 2002. I basically "shrunk down" the 6'9"A for this mold design. This blank can be ordered wider or narrower as to allow for stronger decks/rails near the perimeter of the board outline, and less waste.
